

St. Canices Church Alterations - St. Canices Church

Client: St. Canices Church

Contract Value

€150,000

Completion Date

April 2015

Alterations, Mechanical and Electrical works to St. Canices Church in Finglas.

St. Canices Church Alterations included the installation of an accessible ramp to the Altar, a new handrail to the front entrance steps, an accessible ramp to the side entrance and the upgrade and re-configuration of the accessible toilets. Mechanical and Electrical works included the installation of a new oil boiler, electric unit heaters, automatic door openers and repair and water proofing works to the Basement Club Room.

Close liaison with the client was necessary at all stages of the project to ensure that works were carried out in accordance with the service schedule of the Church and to allow stoppages for daily mass and adhoc services.

McKeon Group acted as Main Contractor and PSCS as well as Electrical and Mechanical Contractor on the project.
